HARDY GARDEN CHRYSANTHEMUMS

A Specialty

We offer the following Hardy Mums as the best we can find of this wonderful flower. Our plants are all grown and propagated by us in our Greenhouse and propagating beds. Our methods will be gladly explained to all visitors.

NEW HARDY CHRYSANTHEMUMS - For 1941

ACACIA — Thousands of acacia-like blossoms covering plants from late Sept. on. Frost resistant.

AUTUMN LIGHTS — Compact branchy plants covered with coppery-bronze blooms. Dark green foliage.

GOBLIN — Very distinct warm bronze with an airy and graceful habit. Blooms just about Hallowe'en time.

GLEAM O'GOLD — Splendid primrose yellow, which fairly gleams in the Autumn sunshine. Oct. 5th.

MELODY — Free flowering single Korean type. Lovely 2½" blooms of soft daphne color. Noticeably fragrant.

2¼" pots 2.50 per 10

POMPONETTE — A distinctly new type of Hardy Mum, very suitable for pot culture. Its habit is dwarf with buds in deep bronze, finishing clear primrose yellow. It was acclaimed the best in our Gardens during the fall of 1940.

2¼" pots only \$2.50 per 10; \$22.50 per 100

NOTE: Any of the above, except where noted,

2¼" pots \$2.00 per 10; \$18.00 per 100

NEW NORTHLAND DAISIES

KRISTINA — New. Very large single deep rose-pink to lavender, shading to a yellow center. Foliage heavy deep green. One of the best. Very hardy.

SIEGFRIED — This is one of the very attractive yellow Northland Daisies with a 3½" bloom. Branching plants with blooms completely covering plants.

VIKING — Pointed petals of a very attractive burnt-orange shade. A color not often found in such hardy, vigorous, frost resistant Chrysanthemums.

NOTE: Because of the scarcity of these varieties we can only supply them in 2¼" pots.

30c each or 10 for \$2.50

NEW SPOON HARDY CHRYSANTHEMUM

Very Popular For 1941

Here is some thing new in Hardy Mums—flowers with long tubular petals that flatten out at the tips into a miniature spoon. We offer these in three colors for 1941—PINK, WHITE and YELLOW. The public visiting our trial planting last Fall acclaimed them with enthusiasm. They are sure to be very popular.

These are offered as strong established plants in 2¼" pots in the following colors:

Pink Spoon - White Spoon - Yellow Spoon

\$1.50 per 10; \$12.50 per 100

RECENT U. S. GOVERNMENT VARIETIES

Varieties Developed by U. S. Dept. of Agriculture

ALGONQUIN — This is a radiant double yellow, 3" flowers, early in Sept. Grows 30" high. The best early yellow.

AMOSKEAG — A very attractive semi-double light-bronze, blooming a few days sooner than Algonquin.

GERONIMO — A much earlier 3" flower of a fully double bronze, blooming about Sept. 15th. Very desirable.

BARNEGAT — Semi-double yellow with edges of petals lemon-yellow to white shadings. Grows 24" high.

POHATCONG — A lovely, double rose-pink, shading to pale lavender. Blooms 2½ to 3" on tall 30" stems. Fine.
